

AGRICULTURE

INFRASTRUCTURE FUND

The Agriculture Infrastructure Fund (AIF) is a dedicated financing facility designed to transform the post-harvest landscape.

AIF is a financing facility that provides interest subvention and credit guarantee support for eligible agriculture infrastructure projects particularly post harvest management and community asset.

The central purpose is to provide robust financial support directly for post-harvest

management infrastructure and community farming assets.

PROJECT PURPOSE & GOALS

- To reduce post-harvest losses by establishing efficient supply chains.
- To empower farmers by helping them add value to their raw agricultural produce.
- To build modern infrastructure including cold storage chains, warehouses, and pack houses.
- To foster community farming assets like

custom hiring centers and precision farming tech.

SCHEME ELIGIBILITY

AIF provides broad inclusion across the agricultural ecosystem under current rules:

- Eligible individual farmers and groups. •

Farmer Producer Organizations (FPOs).

- Primary Agricultural Credit Societies (PACS).

- Marketing Cooperative Societies and Cooperatives.

- Notified beneficiaries and specific projects.

BENEFITS AND SUPPORT

Eligible projects receive substantial financial assistance subject to standard guidelines:

- Interest subvention of 3% per annum for loans up to INR 2 crore subject to scheme conditions for maximum 7 years of time.
- Credit guarantee coverage available under CGTMSE scheme.

- Credit-linked financial assistance for a maximum period of 7 years.

HOW TO APPLY & ACCESS

- Applicants must access the official AIF online portal to initiate their request.
- Prepare a viable Detailed Project Report (DPR) detailing all technical and financial aspects.
- Submit the application along with project specifications online.

- Await appraisal and final financial-institution or bank approval for fund release.

Indicative documents

The following verified records must be submitted during the process:

- Detailed Project Report (DPR) and comprehensive project asset details.
- Beneficiary identity and entity registration records.
- Land, site ownership, or valid lease

information.

- Core financial statements and bank relationship information.
